THE EIGHTEENTH SIDMOUTH FOUR TRIGS CHALLENGE!

(SPONSORED BY HAYMAN'S BUTCHERS and IAN WINCHESTER & SONS)
Under FRA rules

9:30 am Sunday 11th February 2018

Registered Charity No. 1050845

PASTY - MEAT or VEGGIE (please circle choice)

THE CHALLENGE

Similar to previous years: A 'low-key' off-road running event covering a distance of approximately 28km with an obscene amount of climb involved! Fell Runners' Association Cat B.

Aim: To visit each of the four Triangulation Pillars around the Sid Valley. Although runners will be able to choose their own routes, they must visit each Trig Point in order. **Excessive road running will be frowned upon!** Some knowledge of navigation or local knowledge of the area might help with route choice.

PROVISIONAL ROUTE: Reverse to last year!

TRIGS	TRIG POINTS	GRID REFERENCE
1	High Peak	103859
Marker	Bridge	102903
2	Beacon Hill	111909
Marker	Stile	122924
Marker	Road Crossing	139917
3	Buckton Hill	149908
Marker	Road Crossing	160896
4	Weston Cliff	170882
Marker	Stile	150878

As with previous years, there are a few extra check-points to visit in between each Trig Point to help 'taper' route selection.

PROCEEDS: All profit will go to the charity CRY(Cardiac Risk in the Young). Last year we raised a total of £1,350 for CRY and Sidmouth held its first screening in June.

Cardiac Risk in the Young (CRY) was founded just over 20 years ago in 1995 and has become a leading national charity, striving to prevent young sudden cardiac death (yscd) through awareness, screening and research. CRY also provides a “bespoke” bereavement support programme for families and partners who have been tragically affected by the sudden death of a young person.

Every week in the UK at least 12 apparently ‘fit and healthy’ young people (aged 35 and under) die suddenly from a previously undiagnosed heart condition. That’s 600 deaths a year and this is likely to be a conservative estimate. In 80% of these cases, there will have been no signs or symptoms, which is why CRY believes that proactive cardiac screening is so vitally important. As such, CRY now screens over 20,000 young people (aged between 14-35) every year. This pioneering programme involves a simple, non-invasive electrocardiogram (ECG) that looks at the electrical activity of the heart. If necessary CRY will also perform an echocardiogram, an ultrasound scan of the heart.
